

Brainstorming

Feature request	Description	Value (Low / Medium / High)
Label words	users can mark words in the thesaurus with a label (e.g., "Beowulf")	
Match word list	users can match an existing list of words against those found in the thesaurus, in order to label them	
Show subthesaurus	show information with a specific label only, effectively browsing and exploring a subthesaurus, its information and statistics	
Link words to context	users can link to external web addresses (e.g., to the position of words in the Dictionary of Old English Corpus)	
...	...

Slide 18

S18

Perhaps add mention of:

- * features Evoke already has

- * features that are 'planned'
